

## Ecolift XL backwater lifting st. Duo, 2 mech. flaps, SPF 3000-S1, Taper

## **Article information**

Item no.: 8741058 GTIN: 4026092070673

Price group: 60

## **Advantages**

- Wastewater drainage without interruption, even if a power failure occurs, as long as there is no backwater
- low pump use
- minimised noise emissions

## **Description**

The backwater lifting station for non-faecal wastewater is equipped with one/two submersible pump/s, two mechanical closure systems and a backflow preventer. The collection tank made of permanently resistant polymer (PE) has an enclosed pump tank. Quick-release closures enable the integrated components to be removed easily. Normally, draining takes place via the natural fall to the sewer. In case of backwater, the closure system is closed by the backflowing water. During the backwater phase, the water drains via a pressure pipe, which carries the wastewater into the sewer. The pressure pipe is a welded PE pipe; with pump SPF 4500, the pressure pipe must also be continued up to a pressure release chamber. The station is controlled by a user-friendly control unit, which is optionally integrated in the building management system via a potential-free contact, or alarm and collective fault messages can be output via a GSM interface. The KESSEL modular system provides different upper sections and engineering chamber options as accessories.

Variant

Note on installation depth: Version with lowest installation height

Type of system: duo pump

Shut-off valve: Shut-off valve made of polymer

Passage seal for conduit pipe (DN): 100
Passage seal for ventilation pipe (DN): 70

Pump control: Control unit Backflow preventer: integrated Pressure pipe connection: horizontal

Mechanical backwater flaps: 2

General characteristics

Colour: black

Standard: ÖNORM B 2501
Type of wastewater: without sewage

Delivery state: Pre-mounted for final assembly on site (pumps and

sensor system must be fitted on site and control

unit must be connected)

Backwater protection: Type 2 Approval: Z-53.2-493

**Dimensions** 

Net weight: 141,34 kg
Gross weight: 158,74 kg
