

# Grease separator EasyClean ground Multi, NS 7, Direct, 720-960 mm, D, rh

• •

### **Article information**

Item no.: 96007.80D-DR GTIN: 4026092098417 Price group: 60

#### **Advantages**

- Low odour and clean disposal
- Defined disposal point
- Complete emptying of the separator

#### Description

The unit for an underground installation combines a separator for greasy wastewater incl. sludge trap, a sampling system and a pumping station. The tank of all system parts is made of permanently resistant polymer (PE). The individual system parts can be accessed for cleaning and maintenance work via two service access covers. A direct disposal pipe socket is available for reduced odour during manual disposal. The pumping station is equipped with two submersible pumps and a backflow preventer. The submersible pumps are placed in the tank using guide rods. The pumps are actuated via a level sensor. The station is controlled by a user-friendly control unit, which can be connected to the building control system via a potential-free contact. Alternatively, alarm and collective fault messages can be sent by way of a GSM interface. A load distribution slab must be installed on site for load class D. The reinforcement drawings are available from KESSEL. 20 year polyethylene warranty.

#### Variant

Direction of flow: Chamber system: Disposal variant: Shredder-Mix-System: Nominal size (NS): SonicControl: Disposal system: Type of disposal: right Twin walled re-enforced pipe chamber Direct no 7,00 no Disposal connection manual with suction hose
